▶ Visual Contents

- Visual Contents graduate program offers MA, Msc, MFA, or PhD degree in research areas of animation, film, visual effects, and visual marketing & promotion. Both Master's and PhD level programs cultivate creative and convergent talents required by industry, universities, and research institutes by educating both art students with technical skills across the research fields and engineering students with artistic sensibility.
- Visual Contents graduate program seeks talented individuals with problem discovery abilities, problem-solving abilities, and creative abilities. To foster professionals, the graduate program reinforces core knowledge, competencies, and convergence factors.

► Business Administration

- For decades, Dongseo University's Business Administration Department has been nurturing business professionals for diverse industries. Recently, through its International College, DSU began offering undergraduate degrees in business administration to Korean and International students using English as the sole language of instruction.
- Now, with support from alumni and in response to changes in business environments that demand advanced learning, Dongseo University's General Graduate School launches the Graduate School of Business Administration.
- IT technologies have created new market opportunities and risks, thereby dramatically changing business environments. As a result, today's business fields require greater analytic abilities from new recruits and veteran managers. This underlies our curricular focus on three academic areas: Marketing, Management Science, and Finance & Accounting.
