Safety Stepping Stone

For 15 minutes starting from 14:00, residents must evacuate to a nearby shelter and listen to radio broadcasts,

and vehicles driving in some sections to be closed must **park on the right side of the road** according to the police's instructions and **listen to radio broadcasts**

Residents and vehicles can resume moving while maintaining their guard After the **Guard Alarm is issued on 14:15**

**Daily routines can return to normal after the Guard Alarm is lifted on 14:20**

# 01 Make thorough **preparations** during peaceful times

## Emergency **shelter**

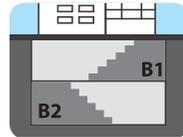

Identify the nearest and safest government-designated shelter

Subway station

underground parking lot

basement of large buildings

Shelter in the event of a chemical attack

Non-contaminated areas and indoor spaces with high ceiling capable of blocking external air

## Emergency **items**

Essential supplies in case of emergency

**Essential** food, drinking water, medicine, radio, flashlight, matches, candles, bedding, clothing

### Preparation for CBR

gas masks, masks, raincoats, gloves, soap

\* Be prepared for cases where you are separated from your family

### Additional items

Children: name tag, adults: ID card (copy)

# 02 When an air raid warning is issued or shells fall Please **evacuate** safely

## Emergency **evacuation**

### Apartment, Tall Building

Use emergency stairs instead of elevators

### When driving

Park the vehicle at nearby vacant lot, evacuate from the vehicle after parking on the right side of the road, and listen to radio broadcast

## Chemical attack **evacuation**

**Evacuation** · Protect your respiratory system with a gas mask, mask, etc., and evacuate

**Caution** · Be careful not to be exposed to contaminated air  
· Seal door gaps, turn off air conditioners and ventilators  
· In case of exposure, thoroughly wash the exposed skin with running water for at least 15 minutes

## Biochemical attack **evacuation**

**Evacuation** · Protect your respiratory system with a gas mask, mask, etc., and evacuate

**Caution** · Do not come in contact with contaminants or individuals exposed to contaminants  
· Consume food after cooking it for at least 15 minutes

## Nuclear attack **evacuation**

**Evacuation** · Evacuate immediately to underground facilities such as shelters and subway stations, or inside concrete buildings (with no glass windows)

**At nuclear explosion** · Lie down with your stomach not touching the floor in the opposite direction of the explosion, open your mouth, and cover your eyes and ears

### After nuclear explosion

· Avoid radiation and fallout after nuclear explosion

# 03 Once attack ceases and becomes quiet **Listen carefully**

## When attack **seizes**

Follow instructions provided by the government

Listen to the radio and broadcast  
Do not panic by unconfirmed rumors

Stay together with family and neighbors

Explain current situation so children, elderly and the weak do not feel anxious

Overcome together

Stockpiling daily necessities

blood donation

relief for the injured
